

Dayco Metal is the company producing professional hygiene equipments since 2005. We are located in a 3000 m<sup>2</sup> area in Topkapı which is the industrial areas of İstanbul. Besides our local distribution channels, we export many countries all around the world as European, Middle Eastern and Russian countries. Our products are presented to the consumers with the highest quality by being passed through the planning, production, control and approval stages. For that reason, we are recognised and preferred in our market. With the principle of "the customer satisfaction is our success" we have reached our targets in the domestic and foreign markets in a very short time by establishing strong customer relations both pre and after sales. After that, with bigger aims, we have been going on our way without giving any compromise from our innovation, trust and harmony principles.
